ORIGINAL MEDICARE

PEACE OF MIND WITH MEDICARE MEANS COMPLETE COVERAGE

Did you know that when you only have Original Medicare, known as Medicare Part A and Part B, you are not fully covered for your medical expenses? There is a 20% gap in coverage you are responsible to pay and prescription drug benefits are not included.

To help you navigate Original Medicare and your next steps, it is important to have a local partner helping to guide you through all the important information you should know, including the available options to you and steps to enroll in the best coverage that makes the most sense for you.

WHAT IS ORIGINAL MEDICARE?

Medicare is the federal health insurance program for people who are age 65 or older and others with certain health conditions or disabilities. There are two different parts for Original Medicare:

- Medicare Part A is known as hospital insurance.
- Medicare Part B is known as medical insurance.

MEDICARE PART A (hospital insurance):

If you are receiving Social Security retirement income, most Medicare beneficiaries will automatically be enrolled into Medicare Parts A & B when turning 65.

- Inpatient hospital care
- Care in a skilled nursing facility
- Hospice care
- · Some home health care
- · For most individuals, Medicare Part A is free. If neither you nor your spouse has paid Medicare taxes for at least 10 years, you will need to pay a monthly premium. (You can find this amount in the "Your Medicare Costs" section at Medicare.gov.)
- · If you are eligible for Medicare Part A, with or without a cost, you can also enroll in Medicare Part B.
- You can enroll into Medicare Part A and Part B by contacting Social Security toll-free at (800) 772-1213 (TTY: 1-800-325-0778) or visit SSA.gov/Medicare. You can also set up an in-person appointment at your local Social Security office.

MEDICARE PART B (medical insurance):

- Doctor and other health care provider's services
- Outpatient care (medical care or treatment that does not require an overnight stay in a hospital or medical facility)
- Durable medical equipment (DME)
- · Home health care
- · Some preventive services (such as flu shots and annual wellness visits)
- If you choose to enroll in Part B, you will be required to pay a monthly premium. Most people pay the standard premium amount. If your modified gross income is above a certain amount, you may pay more. The Part B premium can be deducted directly out of your Social Security check.
- Timing for Part B enrollment varies based on individual circumstance. However, in most cases, if you don't sign up for Part B when you're first eligible, you will pay a late enrollment penalty.

MEDICARE SUPPLEMENT BASICS

Medicare Supplement plans are designed to cover the gaps in Original Medicare costs. These plans have been a popular way to get more financial coverage since Medicare began. They can be a smart choice for Vermonters who are accustomed to choosing any provider that accepts Medicare, local & nationwide.

We offer Medicare Supplement plans A, C*, D, F*, G, and N.

- *If you became eligible for Medicare before January 1, 2020, you can enroll in Plan C or Plan F.
- Access to any provider or healthcare facility in the U.S. that accepts Medicare
- No referrals to see a specialist or any other provider
- · Coverage that travels with you
- · A health plan to supplement Original Medicare
- Coverage for out-of-pocket costs left unpaid by Medicare which you will otherwise need to pay
- Peace of mind knowing you have additional financial protection for your health care needs.
- Medicare Supplement coverage requires a monthly premium to the insurance company that you select for this coverage (in addition to your Medicare Part B premium).

PRESCRIPTION DRUG COVERAGE

A Medicare Supplement plan does not include prescription drug coverage, but this coverage can be purchased alone. A Prescription Drug Plan (PDP) is a perfect complement to a Medicare Supplement plan. This helps cover the cost of prescription drugs – generic and brand-name. See page 6 for more information.

AVOIDING PART D LATE ENROLLMENT PENALTY

By not enrolling into Medicare Part D when you are first eligible, you may have to pay a penalty every month for life. Medicare Part D late enrollment penalty is an amount that can be added to your Medicare drug coverage (Part D) premium. You may have to pay a late enrollment penalty if at any time later after your Initial Enrollment Period is over, there's a period of 63 or more days in a row when you don't have Medicare drug coverage or other creditable prescription drug coverage. You'll generally have to pay the penalty for as long as you have the Medicare drug coverage.

Unless you are eligible for extra help with paying for your Medicare costs or had other creditable prescription drug coverage, you may owe a late enrollment penalty. The cost of the late enrollment penalty depends on how long you went without Part D or creditable prescription drug coverage. This penalty is added to the cost of your monthly Part D premium.

Once the plan deductible is met, the plan pays 100% of covered services for the rest of the calendar year. High deductible plan G does not cover the Medicare Part B deductible. However, high deductible plans F and G count your payment of the Medicare Part B deductible toward meeting the plan deductible.

²Plans K and L pay 100% of covered services for the rest of the calendar year once you meet the out-of-pocket yearly limit.

³-Plan N pays 100% of the Part B coinsurance, except for a copayment of up to \$20 for some office visits and up to a \$50 copayment for emergency room visits that do not result in an inpatient admission.
