TEMPORARY/EMERGENCY CORPORATE PAYMENT POLICY 29:
APPLIED BEHAVIOR ANALYSIS (ABA) SERVICES BY TELEMEDICINE OR TELEPHONE

Effective Date: March 13, 2020

Description

This payment policy was implemented on a temporary/emergency basis and will be effective through August 31, 2021. The purpose is to remove barriers to Blue Cross and Blue Shield of Vermont (BCBSVT) members receiving care during the COVID-19 pandemic.

BCBSVT reserves the right to implement, modify, and revoke this policy without the contractual sixty (60) day notification of a change that is normally required in provider contracts. This will apply for both the effective date, due to the urgent and emergent nature of the pandemic, as well as changes to and withdrawal of the policy. Notice of changes to the policy will be communicated to providers via a notice on BCBSVT’s provider website.

BCBSVT’s Corporate Payment Policy 03 (Telemedicine) continues to apply for the services identified in that policy and rendered via HIPAA-compliant audio/video means. This policy supplements that existing policy, for certain applied behavior analysis services delivered via telemedicine or telephone, on a temporary/emergency basis.

Policy

BCBSVT reimburses for certain applied behavior analysis delivered via telemedicine, not just on a temporary or emergency basis, as stated in BCBSVT’s Corporate Payment Policy 03 (Telemedicine). In addition to those services, and on a temporary/emergency basis, BCBSVT will also pay for certain applied behavior analysis services listed in this policy when:

- Services are rendered via HIPAA-compliant audio/video telemedicine means or by telephone if audio/video telemedicine is not available, and
- When the visit is between a provider and a patient (or parent of a patient under the age of 12)

While most of these services are best delivered face-to-face, it may be possible to deliver the services effectively via telemedicine (or some by telephone). For example:

- For the assessment services (e.g., 0362T, 97151, and 97152), another individual (such as a parent or behavior technician (BT), guided by the board-certified behavior analyst (BCBA)) could be administering the assessment tool while another clinician is watching via video.
• The direct observation, real-time feedback, and data gathering required for certain treatments (e.g., 97153, 97154, 97158) may be possible via telemedicine or telephone if, for example:
  o A member with higher functional skills and limited social skills could be assisted to have a device set up (video or audio) where the member could interact with a BT and work on social interactions and goals.
  o A member with limited functional skills could have a parent/caregiver set up a video device and work directly with the member through guidance provided in real time by a BT (video conferencing).
• For certain treatments (e.g., 97155), the BT could be providing the treatment and BCBA could be monitoring by video or audio, and there could be flexibility on audio/video follow-up between the BCBA and BT after the session if the BCBA is not able to provide guidance during the session.
• For certain guidance services (e.g., CPT 97156, 97157) the BCBA could be providing education or guidance through a video or audio platform.

The Provider is responsible for:

• Obtaining verbal or written consent from the patient or the patient’s adult representative for the use of telemedicine to conduct the visit
• Documenting this consent in the patient’s medical record
• Advising the patient that the visit will be billed to BCBSVT
• Documenting the visit in accordance with standard requirements, including the requirements set forth in the applicable BCBSVT policies, such as the Medical and Treatment Records Standards policy. These requirements include, but are not limited to the following:
  o Documentation that the patient has been informed about the nature of the service and that it will be billed to BCBSVT as such;
  o Documentation of the member’s individualized treatment plan; and
  o Progress notes demonstrating evidence of improvement and/or lack of improvement or regression
• Using telemedicine only for visits that fall within the standard of care and that can be reasonably and safely handled via telemedicine
• Obtaining any prior approval that may be required by the member’s benefits.
• To the extent any of the individuals accepting patient calls are working remotely, those individuals should take precautions to protect the privacy of protected health information.

Not Eligible for Payment

Any services delivered pursuant to the terms of this temporary policy should be appropriate for delivery through telemedicine. Services not appropriate for delivery via telemedicine may not be reimbursed.

Eligible Services

Please see the coding table provided as Attachment 1 to this policy.
Benefit Determination Guidance
Coverage for services is dependent on the member’s benefits. It is important to verify the member’s benefits prior to providing the service to determine if benefits are available or if there is a specific exclusion in the member’s benefit. However, under this temporary policy, services that are covered under a benefit plan will be covered as if they were delivered in the office.

Eligible services are subject to applicable member cost sharing such as co-payments, co-insurance, and deductible. Member cost sharing under this policy will be the same cost sharing that would apply had the services been delivered in-person.

Federal Employee Program (FEP): Members may have different benefits that apply. For further information please contact FEP customer service or refer to the FEP Service Benefit Plan Brochure. It is important to verify the member’s benefits prior to providing the service to determine if benefits are available or if there is a specific exclusion in the member’s benefit.

Inter Plan Programs (IPP): In accordance with the Blue Cross and Blue Shield Association’s Inter-Plan Programs Policies and Provisions, this payment policy governs billing procedures for goods or services rendered by a Vermont-based provider (BCBSVT is the local Plan), including services rendered to out-of-state Blue members. Provider billing practices, payment policy and pricing are a local Plan responsibility that a member’s Blue Plan must honor. A member’s Blue Plan cannot dictate the type of claim form upon which services must be billed, codes and/or modifiers, place of service or provider type, unless it has its own direct contract with the provider (permitted only in limited situations). A member’s Blue Plan cannot apply its local billing practices on claims rendered in another Plan’s service area. A member’s Blue Plan can only determine whether services rendered to their members are eligible for benefits. To understand if a service is eligible for payment it is important to verify the member’s benefits prior to providing services. In certain circumstances, the member may be financially responsible for services beyond the benefit provided for eligible services.

Claims are subject to payment edits that are updated at regular intervals and generally based on Current Procedural Terminology (CPT®), Health Care Procedural Coding System (HCPCS), Internal Classification of Diseases, CMS National Correct Coding Initiative Edits, Specialty Society guidelines, etc.

Provider Billing Guidelines and Documentation
For the ABA service codes listed in this policy, providers should append telemedicine modifier (-95) and bill using place of service 02.

National Drug Code(s)
Health Care Procedure Coding System (HCPCS) codes related to chemotherapy drugs, drugs administered other than oral method, and enteral/parenteral formulas may be subject to National Drug Code (NDC) processing and pricing. The use of NDC on medical claims helps facilitate more accurate payment and better management of drug costs based on what was
dispensed and may be required for payment. For more information on BCBSVT requirements for billing of NDC please refer to the provider portal at [http://www.bcbsvt.com/provider-home](http://www.bcbsvt.com/provider-home) for the latest news and communications.

**Eligible Providers**
This policy applies to all providers/facilities contracted with the Plan’s Network (participating/in-network) and any non-participating/out-of-network providers/facilities.

**Audit Information:**
BCBSVT reserves the right to conduct audits on any provider and/or facility to ensure compliance with the guidelines stated in the payment policy. If an audit identifies instances of non-compliance with this payment policy, BCBSVT reserves the right to recoup all non-compliant payments.

**Related Policies/References:**

**Document Precedence**

The Blue Cross and Blue Shield of Vermont (“BCBSVT”) Payment Policy Manual was developed to provide guidance for providers regarding BCBSVT payment practices and facilitates the systematic application of BCBSVT member contracts and employer benefit documents, provider contracts, BCBSVT corporate medical policies, and Plan’s claim editing logic. Document precedence is as follows:

1) To the extent that there may be any conflict between the BCBSVT Payment Policy Manual and the member contracts or employer benefit documents, the member contract or employer benefit document language takes precedence.
2) To the extent that there may be any conflict between the BCBSVT Payment Policy Manual and provider contract language, the provider contract language takes precedence.
3) To the extent that there may be any conflict between the BCBSVT Payment Policy Manual and corporate medical policy, the corporate medical policy takes precedence.
4) To the extent that there may be any conflict between the BCBSVT Payment Policy Manual and the Plan’s claim editing solution, the Plan’s claim editing solution takes precedence.

**Policy Implementation/Update Information**

This policy was originally implemented on an emergency/temporary basis effective March 13, 2020, and it will continue to be reviewed at regular intervals.

The August 2020 update extended the end date for the policy.
The November 2020 update extends the end date for the policy.

The June 2021 update clarifies that the policy ends August 31, 2021.
