

2023 National Performance Formulary Wellness List

Effective January 1, 2023

Managing your health with wellness medications

Your pharmacy benefit plan includes special coverage for wellness medications.

The drugs on your plan's wellness medications list do not have a deductible. This means you'll pay your copayment/coinsurance or nothing at all, depending on your plan.

To check the cost of any medication, call the number on your member ID card or visit your plan's website on your member ID card.

Potential savings with generic medications

To get the most from your benefits, ask your doctor if a generic medication is right for you. Generics normally cost less than brand medications, and the Food and Drug Administration (FDA) requires them to be just as safe and effective.

A list of covered wellness medications begins on the next page.

Medications are listed by therapeutic category.

For questions on injectable wellness medications administered by your doctor or healthcare provider, please call the number on your ID card.
