

Preventive care medications

\$0 cost share medications and products^{1,2,3,5}

Effective July 1, 2026

Under the health reform law (Affordable Care Act), benefit plans must cover certain preventive care medications at 100% — without charging a copay, coinsurance or deductible.

These products include:

- U.S. Preventive Services Task Force A & B Recommendation medications
- Food and Drug Administration (FDA)-approved prescription and over-the-counter (OTC) birth control (contraceptives).
- Flu shot and other vaccines

In support of this law, BlueCross[®] and BlueShield[®] of Vermont is offering this updated list of no-cost preventive care medications.

You can use your member ID card to get the products on this list for no cost if they are:

- Prescribed by a health care professional
- Age- and condition-appropriate
- Filled at a network pharmacy

To find a network pharmacy, log on to [bluecrossvt.org](https://www.bluecrossvt.org), select *Find a Pharmacy* or call the number on your VermontBlueRx member ID card. If you get these medications or products from an out-of-network pharmacy, you may have to pay the full cost for them.
