### Description/Summary

Infusion therapy involves the administration of medication through a needle or catheter. It is prescribed when a patient's condition is so severe that it cannot be treated effectively by oral medications. Typically, "infusion therapy" means that a drug is administered intravenously, but the term also may refer to situations where drugs are provided through other non-oral routes, such as intramuscular injections and epidural routes (into the membranes surrounding the spinal cord).

"Traditional" prescription drug therapies commonly administered via infusion include antibiotic, antifungal, antiviral, chemotherapy, hydration, pain management, and parenteral nutrition. Infusion therapy is also provided to patients for treating a wide assortment of often chronic and sometimes rare diseases for which "specialty" infusion medications are effective.

[Attachment I - Coding Table & Instructions](#)

#### When a service may be considered medically necessary

Home infusion therapy via Intravenous (IV) solutions and/or injectable (given either subcutaneous or intramuscular) medications may be considered **medically necessary** by the Plan when ALL of the following criteria are met:

- Prescription drug is FDA approved; **AND**
- Therapy regimen is prescribed by a medical doctor (MD or DO), physician

- assistant (PA) or nurse practitioner (NP); **AND**
- Therapy is managed by a medical doctor (MD or DO), physician assistant(PA), nurse practitioner (NP) or registered nurse (RN) in the home; **AND**
- Treatment can be safely administered in the home; **AND**
- The prescribed home infusion therapy regimen is for a period of time not to exceed the standard of care for the condition being treated; **AND**
- Services are provided by a network/preferred home infusion therapy provider

**NOTE:** Certain drugs may require prior approval. Please refer to the BCBSVT Drug Prior Approval Listing

### When a service is considered not medically necessary

- Home infusion therapy that does not meet the above medical necessity criteria.

### Document Precedence

Blue Cross and Blue Shield of Vermont (BCBSVT) Medical Policies are developed to provide clinical guidance and are based on research of current medical literature and review of common medical practices in the treatment and diagnosis of disease. The applicable group/individual contract and member certificate language, or employer's benefit plan if an ASO group, determines benefits that are in effect at the time of service. Since medical practices and knowledge are constantly evolving, BCBSVT reserves the right to review and revise its medical policies periodically. To the extent that there may be any conflict between medical policy and contract/employer benefit plan language, the member's contract/employer benefit plan language takes precedence.

### Audit Information

BCBSVT reserves the right to conduct audits on any provider and/or facility to ensure compliance with the guidelines stated in the medical policy. If an audit identifies instances of non-compliance with this medical policy, BCBSVT reserves the right to recoup all non-compliant payments.

## Administrative and Contractual Guidance

## Benefit Determination Guidance

Prior approval is not required and benefits are subject to all terms, limitations and conditions of the subscriber contract.

Incomplete authorization requests may result in a delay of decision pending submission of missing information. To be considered complete, see policy guidelines above.

NEHP/ABNE members may have different benefits for services listed in this policy. To confirm benefits, please contact the customer service department at the member's health plan.

Federal Employee Program (FEP): Members may have different benefits that apply. For further information please contact FEP customer service or refer to the FEP Service Benefit Plan Brochure. It is important to verify the member's benefits prior to providing the service to determine if benefits are available or if there is a specific exclusion in the member's benefit.

Coverage varies according to the member's group or individual contract. Not all groups are required to follow the Vermont legislative mandates. Member Contract language takes precedence over medical policy when there is a conflict.

If the member receives benefits through an Administrative Services Only (ASO) group, benefits may vary or not apply. To verify benefit information, please refer to the member's employer benefit plan documents or contact the customer service department. Language in the employer benefit plan documents takes precedence over medical policy when there is a conflict.
