

Tumor Treatment Fields for CNS Cancers Corporate Medical Policy

File Name: Tumor Treatment Fields for CNS Cancers
File Code: 1.01.VT29
Origination: 06/2018
Last Review: 09/2025
Next Review: 09/2026
Effective Date: 01/01/2026

Description/Summary

Tumor treating fields (TTF) therapy is a noninvasive technology intended to treat glioblastoma, malignant pleural mesothelioma, and non small cell lung cancer on an outpatient basis and at home using electrical fields. Glioblastoma multiforme (GBM) is the most common and deadly malignant brain tumor. It has a very poor prognosis and is associated with low quality of life during treatment.

Policy

Coding Information

Click the links below for attachments, coding tables & instructions.

[Attachment I - Coding Table](#)

When a service may be considered medically necessary

Tumor treating fields therapy to treat glioblastoma multiforme, anaplastic oligodendroglioma, anaplastic astrocytoma, and anaplastic gliomas may be considered **medically necessary** in the following situations:

- As an alternative to standard chemotherapy for patients with progressive or recurrent glioblastoma multiforme, anaplastic oligodendroglioma, anaplastic astrocytoma, and anaplastic gliomas after initial or repeat treatment with surgery, radiotherapy, and/or chemotherapy when disease is unresectable or resection not recommended.
- As adjuvant treatment to standard therapy in patients with supratentorial disease and glioblastoma multiforme following initial treatment with surgery, radiotherapy, and/or chemotherapy.

When a service is considered investigational

Tumor treating fields therapy is considered **investigational** for ALL other indications.

Policy Guidelines

There are no specific codes for the initial application of this system or instruction on use. The patient reapplies the transducer arrays at home after the initial instruction.

Document Precedence

Blue Cross and Blue Shield of Vermont (Blue Cross VT) Medical Policies are developed to provide clinical guidance and are based on research of current medical literature and review of common medical practices in the treatment and diagnosis of disease. The applicable group/individual contract and member certificate language, or employer's benefit plan if an ASO group, determines benefits that are in effect at the time of service. Since medical practices and knowledge are constantly evolving, Blue Cross VT reserves the right to review and revise its medical policies periodically. To the extent that there may be any conflict between medical policy and contract/employer benefit plan language, the member's contract/employer benefit plan language takes precedence.

Audit Information

Blue Cross VT reserves the right to conduct audits on any provider and/or facility to ensure compliance with the guidelines stated in the medical policy. If an audit identifies instances of non-compliance with this medical policy, Blue Cross VT reserves the right to recoup all non-compliant payments.

Administrative and Contractual Guidance

Benefit Determination Guidance

Prior approval may be required and benefits are subject to all terms, limitations and conditions of the subscriber contract.

Incomplete authorization requests may result in a delay of decision pending submission of missing information. To be considered complete, see policy guidelines above.

An approved referral authorization for members of the New England Health Plan (NEHP) is required. A prior approval for Access Blue New England (ABNE) members is required.

NEHP/ABNE members may have different benefits for services listed in this policy. To confirm benefits, please contact the customer service department at the member's health plan.

Federal Employee Program (FEP): Members may have different benefits that apply. For further information please contact FEP customer service or refer to the FEP Service Benefit Plan Brochure. It is important to verify the member's benefits prior to providing the service to determine if benefits are available or if there is a specific exclusion in the member's benefit.

Coverage varies according to the member's group or individual contract. Not all groups are required to follow the Vermont legislative mandates. Member Contract language takes precedence over medical policy when there is a conflict.

If the member receives benefits through an Administrative Services Only (ASO) group, benefits may vary or not apply. To verify benefit information, please refer to the member's employer benefit plan documents or contact the customer service department. Language in the employer benefit plan documents takes precedence over medical policy when there is a conflict.

Policy Implementation/Update information

06/2018	New Policy, input received from external network specialty providers.
10/2020	No change to policy statement.
10/2021	Policy Reviewed. Updated references. No change to policy statement.
09/2022	Policy Reviewed. References updated. No change to policy statement.
